Learning Today to LEAD Tomorrow

Overview

The **National Career Pathways Network (NCPN)** is dedicated to serving practitioners of career pathways, career technical education (CTE), adult education, and workforce development initiatives. We strive to streamline and strengthen the career pathways message and its implementation across the nation and abroad. To that end, NCPN has created the NCPN Leadership Development Academy (LDA).

The LDA is a year-long professional development program designed to help career pathways practitioners develop leadership skills that will equip them to better serve the broader goals of their institutions, communities, and stakeholders.
